

If passed by voters on May 15, 2018 the proposed \$619.7 million bond would increase the current property tax levy rate by an estimated \$1.24 per \$1,000 of assessed property value. If the bond does not pass, the additional tax would not be levied and the listed projects would not be completed. The Community Facilities Task Force reviewed all funding methods available to the district and recommended the School Board place a general obligation bond on the ballot for voters to consider. The district would receive an \$8,000,000 grant from the state if bonds are passed.

Auburn Elementary School

Auburn Elementary School is a single-story facility constructed in 1955. Eleven (11) portable classrooms were added to address previous enrollment growth. Core areas are undersized for the current student population. Enrollment is projected to decline slightly over the next few years, then increase through 2025 and beyond. The bond would expand Auburn Elementary's building capacity to 700 students. All portable classrooms would be removed. Expansion projects would include a new cafeteria, conversion of the current cafeteria into a multipurpose fitness room, and library upgrades. The existing school facility would be renovated.

If the bond passes:

Timeframe

2020 (construction start date)

Additional/Expanded Space

- Construction of an addition to expand classroom capacity of the main building to 700 students
- Construction of a new cafeteria, servery and kitchen
- Conversion of the current cafeteria into a multipurpose fitness room
- Removal of all portable classrooms

Improvements

- Renovation of current facility to meet educational needs
- Library Media Center upgrades
- Intercom system upgrades
- Card access system upgrades
- Expanded wireless capacity
- Seismic improvements
